The “Maintenance Insanity” Cure: Practical Solutions to Improve Maintenance Work

Einstein said that insanity is “doing the same thing over and over again and expecting different results.” Yet that is *exactly* what is happening in maintenance organizations. How many times have clients told consultants, “But we’ve *always* done it this way?!”

In many companies, especially the large ones, we fail to talk to each other enough to know what needs to change to drive continual improvements and reduce waste. This work:

- guides any size plant or organization to improve how they do maintenance.
- offers how to keep equipment running longer.
- creates a more efficient and streamlined structure so companies can be competitive in today’s market.
- features practical solutions that present the perfect antidote for maintenance insanity.

The “Maintenance Insanity” Cure is chock-full of useful checklists, flowcharts, templates and other helpful documents that readers can customize for their own needs. All are in black and white in the book, and in full-color versions on an affiliated website, www.maintenanceinsanity.com.

CONTENTS

• How Bad Are We? • Evaluate the Need for Intervention • The Maintenance Journey • Implementation • Planning and Scheduling Guiding Principles • Back to Basics • True Partnership • Small Site Planning and Scheduling • Cost Analysis • Contractor Productivity Improvement Process • Proper Team Structure • Continual Alignment Improvement Process • Assessment Processes and Cold Eye Review • Sales & Operations Planning • Mergers & Acquisitions • Shutdown/Turnaround Solutions • A Glimpse into the Future.

ABOUT THE AUTHOR

Roger D. Lee is the President and Founder of RDL Solutions, LLC, a general consulting firm that helps any size plant or company to improve efficiency, cost control, productivity and reliability. They focus on leveraging the wisdom of experience to share learning’s gained and help the client change work processes to yield ongoing developmental advantages. Solutions address organizational structure, assessments of present conditions, gap analysis with gap closure plans, behavior/result re-enforcement programs, cultural change processes and work process development. RDL Solutions helps develop and drive client visions to become reality. Lee has more than 42 years of experience in the chemical and refining industry with a huge variety of clients across the world.
